WORK EXPERIENCE

Full Stack Developer
Peregrine Telemetry ⬈
01/2020 - Present   *Viña del Mar, Chile*
Achievements
- Migrated most services from a Home Server to the Cloud (Digital Ocean Droplets)
- Increased software maintainability and performance by Developing Flutter and Ruby on Rails solutions.
- Reduced process times from 15 minutes to a couple seconds using custom regex configurations.

Contact : Gonzalo Arellano - comex@peregrinetelemetry.com

Front End Developer
Centro Avanzado de Ingeniería Eléctrica y Electrónica (AC3E) ⬈
08/2021 - 12/2021   *Viña del Mar, Remote*
Scientific investigation center for electronic and electric projects in Chile.
Achievements/Tasks
- Redesign autocompletion and text suggestion design of Optikey to meet the requirements of Milan Derpich, a proffessor who has an advanced **amyotrophic lateral sclerosis** condition.
- Improved the usability of optikey and accelerated writing with the eyes.
- Adapted and learnt a framework that I learnt in a couple of weeks (WPF .NET 4.6).

Contact : Jorge Silva - jorgesiledu@gmail.com
